Candidate-submitted response. The answers below were received through the 2026 candidate survey form and are reproduced as submitted, with only formatting changes. Publicly researched positions were not used. Publication does not constitute an endorsement by Wyoming Family Alliance Action.

1

1. Abortion is the intentional act of ending the life of another human being, while in the womb. Lawmakers should work to promote and protect the value of human life from conception to natural death, rather than further expansions of abortion access. (HB126-2026; HB42-2025; HB 148-2024)

RESPONSE Strongly Agree

I believe lawmakers must actively promote and protect the value of every human life-from conception to natural death-rather than pursuing further expansions to abortion access. Strong families and a culture of life are foundational to Wyoming's future.

2

2. The danger of chemical abortion has been heavily researched (see EPPC study). Lawmakers should work to ensure that women are fully informed and receive a medical examination prior to receiving such drugs. (HB64-2025; HB117-2026)

RESPONSE Strongly Agree

I oppose all chemical abortion drugs. Until the law is changed to prevent chemical abortion drugs, every woman should be fully informed about the risks, alternatives, and realities of the procedure so she can make the best decision for herself and her baby. Lawmakers should ensure women receive full, accurate information and a medical examination before any chemical abortion drugs.

3

3. Individuals and faith-based entities should have the right of conscience to freely live out their sincerely held convictions without fear of government infringement or retaliation. (HB 207-2025; SF 77-2025)

RESPONSE Strongly Agree

My campaign revolves around individual sovereignty and self-governance. Wyoming is strongest when the people are freest.

4

4. Medical personnel should not be required to participate in any medical procedure or service that conflicts with the individual's sincerely held moral, ethical, or religious beliefs. (SF111-2023; HB143-2026)

RESPONSE Strongly Agree

Medical professional should never be forced to participate in any procedure that violates their moral, ethical, or religious beliefs.

5

5. Lawmakers should protect minors by ensuring that government-funded spaces, including libraries and public schools, restrict access to sexually explicit content, while recognizing the right of parents to make decisions regarding their minor children's access to such materials. (HB10-2026)

RESPONSE Strongly Agree

I strongly support efforts like HB 10 to restrict minors' access to sexually explicit materials in Wyoming schools and public libraries.

6

6. Wyoming should recognize biological differences between men and women and protect girls' sports, locker rooms, and sex-designated spaces. (SF 44-2025; SF 62-2025; HB 72-2025; HB 32-2025; SF133-2023)

RESPONSE Strongly Agree

There is only male and female.

7

7. Lawmakers should support legislation that helps parents stand up to government entities that attempt to circumvent their rights in raising their children. (Sf 09-2024; HB 200-2025)

RESPONSE Strongly Agree

Parents have ultimate primacy in raising their children. I support legislation that empowers parents to stand up against government entities attempting to circumvent their rights and authority over their children's education, healthcare, and upbringing.

8

8. Lawmakers should allow education funding to follow the child and protect parents' freedom to choose public, public charter, private, or homeschool options. (HB 166-2024; SF 61-2024; HB 199-2025; HB 94-2025; HB 46-2025; HB 23-2026)

RESPONSE Strongly Agree

I strongly agree with education funding to follow the child and parental choice for education.

9

9. Lawmakers should support open enrollment policies that allow students to attend schools regardless of their geographic address. (SF 109-2025)

RESPONSE Strongly Agree

Empowering families with more control over where their children attend school strengthens parental rights and improves outcomes.

10

10. Lawmakers should ensure that public schools and post-secondary educational institutions do not seek to enforce DEI (Diversity, Equity, and Inclusion) mandates, which promote discrimination by dividing individuals into classes of “oppressed” and “oppressor.” (SF 103-2025; HB 147-2025)

RESPONSE Strongly Agree

DEI initiatives are rooted in Marxist ideology that divides people by identity rather than uniting them through merit and shared values. DEI has no place in Wyoming government, schools or public institutions.
