Candidate-submitted response. The answers below were received through the 2026 candidate survey form and are reproduced as submitted, with only formatting changes. Publicly researched positions were not used. Publication does not constitute an endorsement by Wyoming Family Alliance Action.

1

1. Abortion is the intentional act of ending the life of another human being, while in the womb. Lawmakers should work to promote and protect the value of human life from conception to natural death, rather than further expansions of abortion access. (HB126-2026; HB42-2025; HB 148-2024)

RESPONSE Strongly Agree

I agree that lawmakers should promote and protect the value of human life from conception to natural death. I do not support further expansion of abortion access. Laws must be written clearly so that doctors can act when a mother's life is at risk, and so that women and families receive real support before and after birth.

2

2. The danger of chemical abortion has been heavily researched (see EPPC study). Lawmakers should work to ensure that women are fully informed and receive a medical examination prior to receiving such drugs. (HB64-2025; HB117-2026)

RESPONSE Strongly Agree

I agree that women should be fully informed and receive an appropriate medical examination before receiving abortion-inducing drugs. Informed consent and patient safety should not be optional.

3

3. Individuals and faith-based entities should have the right of conscience to freely live out their sincerely held convictions without fear of government infringement or retaliation. (HB 207-2025; SF 77-2025)

RESPONSE Strongly Agree

Religious liberty and matters of morality are foundational freedoms, and government should not punish people for refusing to violate their beliefs.

- 4** *4. Medical personnel should not be required to participate in any medical procedure or service that conflicts with the individual's sincerely held moral, ethical, or religious beliefs. (SF111-2023; HB143-2026)*

RESPONSE Strongly Agree

This is important to the protection of religious liberty and the integrity of the medical profession.

- 5** *5. Lawmakers should protect minors by ensuring that government-funded spaces, including libraries and public schools, restrict access to sexually explicit content, while recognizing the right of parents to make decisions regarding their minor children's access to such materials. (HB10-2026)*

RESPONSE Strongly Agree

Parents have the primary right and responsibility to decide what is appropriate for their children, and public schools and libraries should use clear, age-appropriate standards that respect families and protect children.

- 6** *6. Wyoming should recognize biological differences between men and women and protect girls' sports, locker rooms, and sex-designated spaces. (SF 44-2025; SF 62-2025; HB 72-2025; HB 32-2025; SF133-2023)*

RESPONSE Strongly Agree

Girls' sports should be protected, and sex-designated spaces like locker rooms, restrooms, and changing areas should provide privacy and security for women and girls.

- 7** *7. Lawmakers should support legislation that helps parents stand up to government entities that attempt to circumvent their rights in raising their children. (Sf 09-2024; HB 200-2025)*

RESPONSE Strongly Agree

Lawmakers should protect parental rights, require transparency from schools and agencies, The legislature should also ensure families are able to fight when those rights are ignored

- 8** *8. Lawmakers should allow education funding to follow the child and protect parents' freedom to choose public, public charter, private, or homeschool options. (HB 166-2024; SF 61-2024; HB 199-2025; HB 94-2025; HB 46-2025; HB 23-2026)*

RESPONSE Strongly Agree

Parents should have the freedom to choose the education that best fits their child. Education funding should serve students and families, not protect systems for their own sake. Further, any program using public dollars should be transparent, accountable, and effective.

- 9** *9. Lawmakers should support open enrollment policies that allow students to attend schools regardless of their geographic address. (SF 109-2025)*

RESPONSE Strongly Agree

Parents should have the flexibility to choose the education that fits the needs of their child, and the family. Open enrollment should be supported, it must be handled fairly and transparently.

10

10. Lawmakers should ensure that public schools and post-secondary educational institutions do not seek to enforce DEI (Diversity, Equity, and Inclusion) mandates, which promote discrimination by dividing individuals into classes of “oppressed” and “oppressor.” (SF 103-2025; HB 147-2025)

RESPONSE Strongly Agree

Public schools and post-secondary institutions should treat students and employees as individuals, not divide them into groups based on race, sex, or ideology.
