1

1. Abortion is the intentional act of ending the life of another human being, while in the womb. Lawmakers should work to promote and protect the value of human life from conception to natural death, rather than further expansions of abortion access. (HB126-2026; HB42-2025; HB 148-2024)

RESPONSE Strongly Agree

Life is a gift from God and we must protect those who cannot protect themselves. I will always stand to protect the unborn.

2

2. The danger of chemical abortion has been heavily researched (see EPPC study). Lawmakers should work to ensure that women are fully informed and receive a medical examination prior to receiving such drugs. (HB64-2025; HB117-2026)

RESPONSE Strongly Agree

As with any procedure a thorough exam needs to be done and the woman fully informed thus potentially changing the woman's mind and saving the life of the child.

3

3. Individuals and faith-based entities should have the right of conscience to freely live out their sincerely held convictions without fear of government infringement or retaliation. (HB 207-2025; SF 77-2025)

RESPONSE Strongly Agree

The first amendment is very clear on freedom of religion that no law shall be created prohibiting the free exercise of religion.

4

4. Medical personnel should not be required to participate in any medical procedure or service that conflicts with the individual's sincerely held moral, ethical, or religious beliefs. (SF111-2023; HB143-2026)

RESPONSE Strongly Agree

No person should ever be forced to conduct a procedure or a service if it conflicts with their beliefs. Nor should retribution be taken out on a person for refusing to do something against their beliefs.

5

5. Lawmakers should protect minors by ensuring that government-funded spaces, including libraries and public schools, restrict access to sexually explicit content, while recognizing the right of parents to make decisions regarding their minor children's access to such materials. (HB10-2026)

RESPONSE Strongly Agree

Sexually explicit material in taxpayer funded government libraries and public schools must be placed in age appropriate sections away from minor children. If a parent wants their child exposed to that material then they can go to the age appropriate section to get the material for them.

6

6. Wyoming should recognize biological differences between men and women and protect girls' sports, locker rooms, and sex-designated spaces. (SF 44-2025; SF 62-2025; HB 72-2025; HB 32-2025; SF133-2023)

RESPONSE Strongly Agree

This is common sense. There are only genders, male and female. At no time should men be allowed to participate in women's sports or be in women's designated spaces.

7

7. Lawmakers should support legislation that helps parents stand up to government entities that attempt to circumvent their rights in raising their children. (Sf 09-2024; HB 200-2025)

RESPONSE Strongly Agree

It is the rights of the parents to raise their children not the government.

8

8. Lawmakers should allow education funding to follow the child and protect parents' freedom to choose public, public charter, private, or homeschool options. (HB 166-2024; SF 61-2024; HB 199-2025; HB 94-2025; HB 46-2025; HB 23-2026)

RESPONSE Strongly Agree

I fully support parents having the right to choose how and where their children are educated. I have testified on this particular issue. We must invest in our children not institutions.

9

9. Lawmakers should support open enrollment policies that allow students to attend schools regardless of their geographic address. (SF 109-2025)

RESPONSE Strongly Agree

Again, this goes back to parents having the right to choose how and where their children are educated.

10

10. Lawmakers should ensure that public schools and post-secondary educational institutions do not seek to enforce DEI (Diversity, Equity, and Inclusion) mandates, which promote discrimination by dividing individuals into classes of “oppressed” and “oppressor.” (SF 103-2025; HB 147-2025)

RESPONSE Strongly Agree

DEI must be abolished in all educational institutions.
