**1. Abortion is the intentional act of ending the life of another human being, while in the womb. Lawmakers should work to promote and protect the value of human life from conception to natural death, rather than further expansions of abortion access. (HB126-2026; HB42-2025; HB 148-2024)**

**RESPONSE Strongly Agree**

I supported and voted for HB126 which outlawed abortion when a fetal heartbeat is detected. I supported and voted for HB42 Which would have required that all surgical abortions be preformed by a licensed surgeon in a hospital or licensed surgical clinic. HB148 Again was much like HB 42 in regulating abortion. in my view making abortion somewhat harder to obtain. I support anything that would potentially save the life of an unborn baby.

**2. The danger of chemical abortion has been heavily researched (see EPPC study). Lawmakers should work to ensure that women are fully informed and receive a medical examination prior to receiving such drugs. (HB64-2025; HB117-2026)**

**RESPONSE Strongly Agree**

HB64 required an ultrasound in order to get a chemical abortion. this in my view would possibly save the life of the unborn baby, many times when a woman sees the ultrasound of their baby they change their mind and keep their baby. Also determining the size and age of the baby is important in determining if the chemical can be used to abort the baby.

**RESPONSE** Strongly Agree

- 6** 6. Wyoming should recognize biological differences between men and women and protect girls' sports, locker rooms, and sex-designated spaces. (SF 44-2025; SF 62-2025; HB 72-2025; HB 32-2025; SF133-2023)
