1

1. Abortion is the intentional act of ending the life of another human being, while in the womb. Lawmakers should work to promote and protect the value of human life from conception to natural death, rather than further expansions of abortion access. (HB126-2026; HB42-2025; HB 148-2024)

RESPONSE Disagree

The only one who really has the choice is the mother.

2

2. The danger of chemical abortion has been heavily researched (see EPPC study). Lawmakers should work to ensure that women are fully informed and receive a medical examination prior to receiving such drugs. (HB64-2025; HB117-2026)

RESPONSE Agree

When they pick up their prescription, that's their choice.

3

3. Individuals and faith-based entities should have the right of conscience to freely live out their sincerely held convictions without fear of government infringement or retaliation. (HB 207-2025; SF 77-2025)

RESPONSE Strongly Agree

There's a separation of church and state in our constitution. The church cannot be ruled by the government.

4

4. Medical personnel should not be required to participate in any medical procedure or service that conflicts with the individual's sincerely held moral, ethical, or religious beliefs. (SF111-2023; HB143-2026)

RESPONSE Strongly Agree

I strongly support a conscientious objector like we do in the military.

5

5. Lawmakers should protect minors by ensuring that government-funded spaces, including libraries and public schools, restrict access to sexually explicit content, while recognizing the right of parents to make decisions regarding their minor children's access to such materials. (HB10-2026)

RESPONSE Disagree

If parents don't want their kids to attend a library, don't go. That should be the choice of the parent at home. Then there is the responsibility of the parent not to chastise the public. A public library is open to the public. You can separate it by ratings and age groups like movies.

6

6. Wyoming should recognize biological differences between men and women and protect girls' sports, locker rooms, and sex-designated spaces. (SF 44-2025; SF 62-2025; HB 72-2025; HB 32-2025; SF133-2023)

RESPONSE Disagree

Every child has a choice. It's up to the individual, and its not up to the government. If you go through transition surgery, you will have a medical record. To play sports you will have a physical.

7

7. Lawmakers should support legislation that helps parents stand up to government entities that attempt to circumvent their rights in raising their children. (Sf 09-2024; HB 200-2025)

RESPONSE Strongly Disagree

In the 5th Amendment of the Constitution people have the right to be left alone. Know your law; that's the best way you can be protected. If their rights are written in the law, they can't be taken away.

8

8. Lawmakers should allow education funding to follow the child and protect parents' freedom to choose public, public charter, private, or homeschool options. (HB 166-2024; SF 61-2024; HB 199-2025; HB 94-2025; HB 46-2025; HB 23-2026)

RESPONSE Disagree

It's not the government's responsibility to provide for the kids. It's the parent's responsibility to provide for the kid. If parents want private schools, pay the money. It's not strictly the government's responsibility to fund education.

9

9. Lawmakers should support open enrollment policies that allow students to attend schools regardless of their geographic address. (SF 109-2025)

RESPONSE Strongly Disagree

If you're zoned for that district and that school, you go to that school.

10

10. Lawmakers should ensure that public schools and post-secondary educational institutions do not seek to enforce DEI (Diversity, Equity, and Inclusion) mandates, which promote discrimination by dividing individuals into classes of "oppressed" and "oppressor." (SF 103-2025; HB 147-2025)

RESPONSE Strongly Disagree

It doesn't matter the color of your skin. In 1924, Indigenous People were given the right to vote, but we don't even teach Indigenous People's history. Inclusion to me says, we'll teach you everything we know. That includes Indigenous People's history and language.
