Candidate-submitted response. The answers below were received through the 2026 candidate survey form and are reproduced as submitted, with only formatting changes. Publicly researched positions were not used. Publication does not constitute an endorsement by Wyoming Family Alliance Action.

1

1. Abortion is the intentional act of ending the life of another human being, while in the womb. Lawmakers should work to promote and protect the value of human life from conception to natural death, rather than further expansions of abortion access. (HB126-2026; HB42-2025; HB 148-2024)

RESPONSE Disagree

I'm not in favor of killing babies whether they've been born or not. I'm also not in favor of killing mothers either. I'm relieved to say I've never had to make a decision that pits one life against another, but I understand that these things do happen. As such, I don't think we as fallible human beings can possibly write legislation to handle this decision fairly, equitably, or with justice. Each situation is unique and only the people directly involved have enough info to make an informed and ethical decision.

2

2. The danger of chemical abortion has been heavily researched (see EPPC study). Lawmakers should work to ensure that women are fully informed and receive a medical examination prior to receiving such drugs. (HB64-2025; HB117-2026)

RESPONSE Agree

Some reasonable regulation of any chemical we ingest for healthcare reasons is permissible.

3

3. Individuals and faith-based entities should have the right of conscience to freely live out their sincerely held convictions without fear of government infringement or retaliation. (HB 207-2025; SF 77-2025)

RESPONSE Agree

And by the same token, no one should be allowed to force their sincerely held convictions on other people through coercion by employment decisions or other means.

4

4. Medical personnel should not be required to participate in any medical procedure or service that conflicts with the individual's sincerely held moral, ethical, or religious beliefs. (SF111-2023; HB143-2026)

RESPONSE **Agree**

By the same token, no law should forbid participation in medical procedures that don't conflict with the individual's sincerely held beliefs.

5

5. Lawmakers should protect minors by ensuring that government-funded spaces, including libraries and public schools, restrict access to sexually explicit content, while recognizing the right of parents to make decisions regarding their minor children's access to such materials. (HB10-2026)

RESPONSE **Disagree**

Governments hire trained professionals to make such decisions. We should trust them.

6

6. Wyoming should recognize biological differences between men and women and protect girls' sports, locker rooms, and sex-designated spaces. (SF 44-2025; SF 62-2025; HB 72-2025; HB 32-2025; SF133-2023)

RESPONSE **Disagree**

Why do we think that forcing some people with penises and beards to use the women's restrooms is protective of women?

7

7. Lawmakers should support legislation that helps parents stand up to government entities that attempt to circumvent their rights in raising their children. (Sf 09-2024; HB 200-2025)

RESPONSE **Strongly Agree**

I'm looking forward to the law the GOP presents that protects parents who support their LGBTetc. children in their life choices. It will be epic news!

8

8. Lawmakers should allow education funding to follow the child and protect parents' freedom to choose public, public charter, private, or homeschool options. (HB 166-2024; SF 61-2024; HB 199-2025; HB 94-2025; HB 46-2025; HB 23-2026)

RESPONSE **Strongly Disagree**

Publicly funded education, available to all is a big part of what made America great in the first place. If we have any hope of making America great again, we should fully fund public education rather than whittling it away.

9

9. Lawmakers should support open enrollment policies that allow students to attend schools regardless of their geographic address. (SF 109-2025)

RESPONSE **Agree**

In the 21st Century, being able to choose a school that supports a child's unique gifts and talents should be a no-brainer.

10

10. Lawmakers should ensure that public schools and post-secondary educational institutions do not seek to enforce DEI (Diversity, Equity, and Inclusion) mandates, which promote discrimination by dividing individuals into classes of “oppressed” and “oppressor.” (SF 103-2025; HB 147-2025)

RESPONSE Strongly Disagree

Jesus encourages us all to value variety, fairness, and being welcoming to all our neighbors as exemplified in the story of The Good Samaritan. Shame on us for not supporting a key tenet of the Christian faith we all profess.

Candidate responses are shown verbatim except for typographic normalization needed for document rendering.
