1. Abortion is the intentional act of ending the life of another human being, while in the womb. Lawmakers should work to promote and protect the value of human life from conception to natural death, rather than further expansions of abortion access. (HB126-2026; HB42-2025; HB 148-2024)

RESPONSE Strongly Agree

I strongly agree with the exception of saving the mother's life if needed.

2. The danger of chemical abortion has been heavily researched (see EPPC study). Lawmakers should work to ensure that women are fully informed and receive a medical examination prior to receiving such drugs. (HB64-2025; HB117-2026)

RESPONSE Strongly Agree

Anything being put in a body needs to be understood by the patient before accepting any type of treatment

- 4** *4. Medical personnel should not be required to participate in any medical procedure or service that conflicts with the individual's sincerely held moral, ethical, or religious beliefs. (SF111-2023; HB143-2026)*

RESPONSE Agree

I support protecting the conscience rights of medical professionals should not be forced to participate in medical procedures or services that conflict with their Sincerely held moral, ethical, or religious beliefs. At the same time, patients deserve transparency and continuity of care. Healthcare institutions should make reasonable efforts to ensure patients are informed and can access care through another willing provider when appropriate.

- 5** *5. Lawmakers should protect minors by ensuring that government-funded spaces, including libraries and public schools, restrict access to sexually explicit content, while recognizing the right of parents to make decisions regarding their minor children's access to such materials. RESPONSE Strongly Agree

I support protecting minors from exposure to sexually explicit materials in government funded spaces. While also recognizing and respecting the fundamental rights of parents to make decision regarding their childrens upbringing and access to age-appropriate materials.

- 6** *6. Wyoming should recognize biological differences between men and women and protect girls' sports, locker rooms, and sex-designated spaces. (SF 44-2025; SF 62-2025; HB 72-2025; HB 32-2025; SF133-2023)*

RESPONSE Strongly Agree

I live in an area where we have School of Choice. I utilized this myself with my two children because they had different learning abilities so I was able to place them in schools that would be teach them to their own abilities. All parents should have this choice for their children.

10. Lawmakers should ensure that public schools and post-secondary educational institutions do not seek to enforce DEI (Diversity, Equity, and Inclusion) mandates, which promote discrimination by dividing individuals into classes of “oppressed” and “oppressor.” (SF 103-2025; HB 147-2025)

RESPONSE Strongly Agree

I would like for our learning institutions to go back to teaching the subjects at hand. Children are not there to learn about DEI, that is the parents job to teach their children about diversity, equity or inclusion.
