1

1. Abortion is the intentional act of ending the life of another human being, while in the womb. Lawmakers should work to promote and protect the value of human life from conception to natural death, rather than further expansions of abortion access. (HB126-2026; HB42-2025; HB 148-2024)

RESPONSE Strongly Agree

We are created beings, made in the image of God. Not by chance or by choice, dearly loved by our creator. If we are that important, we must do everything to protect the special gift of life.

2

2. The danger of chemical abortion has been heavily researched (see EPPC study). Lawmakers should work to ensure that women are fully informed and receive a medical examination prior to receiving such drugs. (HB64-2025; HB117-2026)

RESPONSE Strongly Agree

Without information and medical examination these drugs are potentially dangerous if the gestational age of the fetus is unknown.

3

3. Individuals and faith-based entities should have the right of conscience to freely live out their sincerely held convictions without fear of government infringement or retaliation. (HB 207-2025; SF 77-2025)

RESPONSE Strongly Agree

Our rights are a gift from our Creator and found under our first amendment to the Constitution of the United States of America.

4

4. Medical personnel should not be required to participate in any medical procedure or service that conflicts with the individual's sincerely held moral, ethical, or religious beliefs. (SF111-2023; HB143-2026)

RESPONSE Strongly Agree

Essential Liberty upholds these beliefs

5

5. Lawmakers should protect minors by ensuring that government-funded spaces, including libraries and public schools, restrict access to sexually explicit content, while recognizing the right of parents to make decisions regarding their minor children's access to such materials. (HB10-2026)

RESPONSE Strongly Agree

Sexually explicit materials should be restricted from government funded spaces for minors. Such materials should be viewed by parents and approved before giving access.

6

6. Wyoming should recognize biological differences between men and women and protect girls' sports, locker rooms, and sex-designated spaces. (SF 44-2025; SF 62-2025; HB 72-2025; HB 32-2025; SF133-2023)

RESPONSE Strongly Agree

Women should feel secure in their spaces without interference from men with gender confusion.

7

7. Lawmakers should support legislation that helps parents stand up to government entities that attempt to circumvent their rights in raising their children. (Sf 09-2024; HB 200-2025)

RESPONSE Strongly Agree

Families are the foundation of any society. A government entity to circumvent parental rights tears at the fabric of society and undermines parental rights as they see fit to raise their children.

8

8. Lawmakers should allow education funding to follow the child and protect parents' freedom to choose public, public charter, private, or homeschool options. (HB 166-2024; SF 61-2024; HB 199-2025; HB 94-2025; HB 46-2025; HB 23-2026)

RESPONSE Strongly Agree

One size fits all education does not work. Parents should have the option to educate their children as they see fit. For they know the best fit for each child.

9

9. Lawmakers should support open enrollment policies that allow students to attend schools regardless of their geographic address. (SF 109-2025)

RESPONSE Strongly Agree

Parents should be able to choose the best education for their child, regardless of location

10

10. Lawmakers should ensure that public schools and post-secondary educational institutions do not seek to enforce DEI (Diversity, Equity, and Inclusion) mandates, which promote discrimination by dividing individuals into classes of “oppressed” and “oppressor.” (SF 103-2025; HB 147-2025)

RESPONSE Strongly Agree

These mandates do little if anything to cure the discrimination issues in society, but rather seek to discriminate one ethnicity over another
