Candidate-submitted response. The answers below were received through the 2026 candidate survey form and are reproduced as submitted, with only formatting changes. Publicly researched positions were not used. Publication does not constitute an endorsement by Wyoming Family Alliance Action.

- 1** *1. Abortion is the intentional act of ending the life of another human being, while in the womb. Lawmakers should work to promote and protect the value of human life from conception to natural death, rather than further expansions of abortion access. (HB126-2026; HB42-2025; HB 148-2024)*

**RESPONSE** Strongly Agree

I believe strongly in the sanctity of life for all humans, born and unborn. I have cosponsored pro-life bills, voted for them, marched in support of life. I have been recognized by Wyoming Right to Life and Laramie County RTL

- 2** *2. The danger of chemical abortion has been heavily researched (see EPPC study). Lawmakers should work to ensure that women are fully informed and receive a medical examination prior to receiving such drugs. (HB64-2025; HB117-2026)*

**RESPONSE** Strongly Agree

The media has steadfastly stayed away from the many stories of women who have experienced serious complications and even died taking the abortifacants. We must ensure that no women get access to these dangerous drugs without an in-person examination and counseling with a licensed medical doctor.

- 3** *3. Individuals and faith-based entities should have the right of conscience to freely live out their sincerely held convictions without fear of government infringement or retaliation. (HB 207-2025; SF 77-2025)*

**RESPONSE** Strongly Agree

The First Amendment does not prohibit religion or religious materials or references. It only protects citizens from being forced by the government to participate in or not being allowed to participate in religious activities. All people must be allowed to practice, or not to practice religion according to their own beliefs and wishes and not prohibited from doing so.

4

**4. Medical personnel should not be required to participate in any medical procedure or service that conflicts with the individual's sincerely held moral, ethical, or religious beliefs. (SF111-2023; HB143-2026)**

**RESPONSE Strongly Agree**

How horrible it is for a Christian health care provider to be forced to perform an abortion or to dispense abortion-inducing medication. This must never happen.

5

**5. Lawmakers should protect minors by ensuring that government-funded spaces, including libraries and public schools, restrict access to sexually explicit content, while recognizing the right of parents to make decisions regarding their minor children's access to such materials. (HB10-2026)**

**RESPONSE Strongly Agree**

My first session, I drafted and promoted HB194. It did not pass the Senate Judiciary Committee. The 2026 session, I influenced and assisted in the drafting of HB10. This was by far the best bill to prohibit the distribution of adult level sexual material to children by government run schools and libraries. The Senate elected to not introduce it to the floor. I will reintroduce this bill in 2027, provided I am reelected. I have been resolute and steadfast in this mission.

6

**6. Wyoming should recognize biological differences between men and women and protect girls' sports, locker rooms, and sex-designated spaces. (SF 44-2025; SF 62-2025; HB 72-2025; HB 32-2025; SF133-2023)**

**RESPONSE Strongly Agree**

I have been a staunch supporter of bills prohibiting boys in girls sports, locker rooms, etc. Our girls deserve to have safe private spaces and to compete fairly, with other biological girls. No female should lose a scholarship to a male impersonating a female athlete. I supported all of the bills listed above.

7

**7. Lawmakers should support legislation that helps parents stand up to government entities that attempt to circumvent their rights in raising their children. (Sf 09-2024; HB 200-2025)**

**RESPONSE Strongly Agree**

I testified to the Joint education committee in 2024 in favor of sf09, before I was a legislator. I have always been a tireless supporter of parental rights. We do not allow the government to raise our children.

8

**8. Lawmakers should allow education funding to follow the child and protect parents' freedom to choose public, public charter, private, or homeschool options. (HB 166-2024; SF 61-2024; HB 199-2025; HB 94-2025; HB 46-2025; HB 23-2026)**

**RESPONSE Strongly Agree**

I was a cosponsor of the Steamboat Legacy bill and consistently pray that this law will be fully enacted in Wyoming. It is imperative that if the government is going to fund education, that tax dollars be afforded to quality private education in Wyoming.

9

**9. Lawmakers should support open enrollment policies that allow students to attend schools regardless of their geographic address. (SF 109-2025)**

**RESPONSE Strongly Agree**

Children do not choose where they live and parents sometimes have little or no control over the quality of a specific public school within the district. It is a fact that some schools perform better than others. Parents should be able to choose where their children go to school.

10

*10. Lawmakers should ensure that public schools and post-secondary educational institutions do not seek to enforce DEI (Diversity, Equity, and Inclusion) mandates, which promote discrimination by dividing individuals into classes of “oppressed” and “oppressor.” (SF 103-2025; HB 147-2025)*

**RESPONSE** Strongly Agree

I strongly agree that public schools, funded with tax dollars NOT provide any education that promotes any kind of racial, religious, or biological discrimination in any way. The Civil Rights Act of 1964 prohibits discrimination against ANY person because of race, religion, sex, age. It does not provide protection only to people of minority classes, but to all citizens.
