Candidate-submitted response. The answers below were received through the 2026 candidate survey form and are reproduced as submitted, with only formatting changes. Publicly researched positions were not used. Publication does not constitute an endorsement by Wyoming Family Alliance Action.

1

1. Abortion is the intentional act of ending the life of another human being, while in the womb. Lawmakers should work to promote and protect the value of human life from conception to natural death, rather than further expansions of abortion access. (HB126-2026; HB42-2025; HB 148-2024)

RESPONSE Strongly Agree

Life is precious and science now verifies that life begins at conception. Our WY Legislature has also passed laws protecting life. Judicial over reach has given our state permission to kill humans. Many women suffer horribly with post partum, physical conditions, and mental health injury following the killing of their child.

2

2. The danger of chemical abortion has been heavily researched (see EPPC study). Lawmakers should work to ensure that women are fully informed and receive a medical examination prior to receiving such drugs. (HB64-2025; HB117-2026)

RESPONSE Strongly Agree

During an enormously emotional time in a woman's life, outside pressure from many vantage points or the feeling of being abandoned or alone can make regrettable decisions. Often these 'solutions' are not explained fully or the side effects presented. The importance of medical oversight is required by the drug instructions but often not seen, read, or followed. A woman or girl, possibly alone, when the child is dispelled from her body can be severely horrifying.

3

3. Individuals and faith-based entities should have the right of conscience to freely live out their sincerely held convictions without fear of government infringement or retaliation. (HB 207-2025; SF 77-2025)

RESPONSE Strongly Agree

Individuals that are expressing their right to free speech and right to petition should be upheld. Lawfare should NEVER compel anyone to forfeit these rights.

- 4** *4. Medical personnel should not be required to participate in any medical procedure or service that conflicts with the individual's sincerely held moral, ethical, or religious beliefs. (SF111-2023; HB143-2026)*

RESPONSE Strongly Agree

I have consistently brought legislation to provide for the freedom of medical professionals, medical researchers, medical admn., pregnancy resource centers to be heard and protected.

- 5** *5. Lawmakers should protect minors by ensuring that government-funded spaces, including libraries and public schools, restrict access to sexually explicit content, while recognizing the right of parents to make decisions regarding their minor children's access to such materials. (HB10-2026)*

RESPONSE Strongly Agree

Even though the ACLU called this bill censorship I believe and maintain that NO child should have access in any public school or public library to sexually explicit materials. These are explicit and it is documented, 2025 Univ of CO study, that it causes permanent harm to undeveloped brains and realationships.

- 6** *6. Wyoming should recognize biological differences between men and women and protect girls' sports, locker rooms, and sex-designated spaces. (SF 44-2025; SF 62-2025; HB 72-2025; HB 32-2025; SF133-2023)*

RESPONSE Strongly Agree

Men/boys have always had separate accomodations. This is a travesty that the WHSSA didn't put a stop to it in HS a couple of years ago and as for colleges it just verifies that liberal nuances for donations are being shown to be detrimental oftentimes.

- 7** *7. Lawmakers should support legislation that helps parents stand up to government entities that attempt to circumvent their rights in raising their children. (Sf 09-2024; HB 200-2025)*

RESPONSE Strongly Agree

I'll support it because it has become allowable because of funding and litigation. I hope and pray that we turn this nonsense around and do what is right. Parents are responsible for their children that means to make decisions and provide for them.

- 8** *8. Lawmakers should allow education funding to follow the child and protect parents' freedom to choose public, public charter, private, or homeschool options. (HB 166-2024; SF 61-2024; HB 199-2025; HB 94-2025; HB 46-2025; HB 23-2026)*

RESPONSE Agree

I support school choice but believe that parent involvement should be a requirement to receive funds.

- 9** *9. Lawmakers should support open enrollment policies that allow students to attend schools regardless of their geographic address. (SF 109-2025)*

RESPONSE Agree

This would permit children in an unperforming district to move their students. I believe the school facilities committee should be part of the conversation. Having the state build and provide appropriations for an over abundance is not warranted.

10

10. Lawmakers should ensure that public schools and post-secondary educational institutions do not seek to enforce DEI (Diversity, Equity, and Inclusion) mandates, which promote discrimination by dividing individuals into classes of “oppressed” and “oppressor.” (SF 103-2025; HB 147-2025)

RESPONSE Strongly Agree

DEI is not a curriculum that benefits the basic subject learning of our students.
