1. Abortion is the intentional act of ending the life of another human being, while in the womb. Lawmakers should work to promote and protect the value of human life from conception to natural death, rather than further expansions of abortion access. (HB126-2026; HB42-2025; HB 148-2024)

RESPONSE Disagree

Freedom to your healthcare should never be decide by the government

2

RESPONSE Strongly Disagree

Medication prescriptions are between the patient and provider, many medications have dangers. Informed consent and understanding does not require a medical exam

Medical personal have job duties and if there is no other available provider to relive them, they must fulfill those services or look for different field of employment. SF111 puts a medical personnel above a patient and parents rights. HB143

This bill was too vague, too restrictive to enforce and encroached on parents rights

RESPONSE Disagree

Wyoming has done enough with these bills. I personally have been attacked for using the female bathroom despite my sex being female.

7

7. Lawmakers should support legislation that helps parents stand up to government entities that attempt to circumvent their rights in raising their children. (Sf 09-2024; HB 200-2025)

There should be greater protections for parents who chose to support LGBTQ+ children
