Candidate-submitted response. The answers below were received through the 2026 candidate survey form and are reproduced as submitted, with only formatting changes. Publicly researched positions were not used. Publication does not constitute an endorsement by Wyoming Family Alliance Action.

1

1. Abortion is the intentional act of ending the life of another human being, while in the womb. Lawmakers should work to promote and protect the value of human life from conception to natural death, rather than further expansions of abortion access. (HB126-2026; HB42-2025; HB 148-2024)

RESPONSE Strongly Agree

I testified in favor of all pro life laws listed above. I continue to advocate for women coming to the abortion business in Casper offering them life-affirming information.

2

2. The danger of chemical abortion has been heavily researched (see EPPC study). Lawmakers should work to ensure that women are fully informed and receive a medical examination prior to receiving such drugs. (HB64-2025; HB117-2026)

RESPONSE Strongly Agree

I testified in favor of these bills as well. It is painful to watch women coming out of the abortion business holding a paper bag with the second bill as I know the pain and horror they will be going through as well as the risks to their health and of course the loss of their babies.

3

3. Individuals and faith-based entities should have the right of conscience to freely live out their sincerely held convictions without fear of government infringement or retaliation. (HB 207-2025; SF 77-2025)

RESPONSE Strongly Agree

The first amendment of the United States Constitution should never be compromised.

4

4. Medical personnel should not be required to participate in any medical procedure or service that conflicts with the individual's sincerely held moral, ethical, or religious beliefs. (SF111-2023; HB143-2026)

RESPONSE Strongly Agree

Medical personnel have a duty to protect life and do no harm. I will speak out to the organizations representing medical professionals and remind them of their duty and never force any provider to violate their principles.

5

5. Lawmakers should protect minors by ensuring that government-funded spaces, including libraries and public schools, restrict access to sexually explicit content, while recognizing the right of parents to make decisions regarding their minor children's access to such materials. (HB10-2026)

RESPONSE Strongly Agree

The sexualization of children is a disturbing recent situation. I will cosponsor similar legislation to HB010 if I have the honor of serving in the House.

6

6. Wyoming should recognize biological differences between men and women and protect girls' sports, locker rooms, and sex-designated spaces. (SF 44-2025; SF 62-2025; HB 72-2025; HB 32-2025; SF133-2023)

RESPONSE Strongly Agree

U.S. Title IX is not a suggestion. It is the law. It was designed to promote women's sports. Women and girls must be protected in their private spaces. We should not go along with a person's delusion that they can become a women when they are men.

7

7. Lawmakers should support legislation that helps parents stand up to government entities that attempt to circumvent their rights in raising their children. (Sf 09-2024; HB 200-2025)

RESPONSE Strongly Agree

I will advocate for full disclosure with no cost to parents who wish to see what their children are learning and there should be consequences for school personnel who hide medical and emotional situations of students with their parents.

8

8. Lawmakers should allow education funding to follow the child and protect parents' freedom to choose public, public charter, private, or homeschool options. (HB 166-2024; SF 61-2024; HB 199-2025; HB 94-2025; HB 46-2025; HB 23-2026)

RESPONSE Strongly Agree

The Wyoming Constitution mandates education for children. Parents should be able to choose the best options for their children including the use of educational savings accounts.

9

9. Lawmakers should support open enrollment policies that allow students to attend schools regardless of their geographic address. (SF 109-2025)

RESPONSE Strongly Agree

Students should be able to go to the schools that best meet their needs regardless of location.

10

10. Lawmakers should ensure that public schools and post-secondary educational institutions do not seek to enforce DEI (Diversity, Equity, and Inclusion) mandates, which promote discrimination by dividing individuals into classes of “oppressed” and “oppressor.” (SF 103-2025; HB 147-2025)

RESPONSE Strongly Agree

Diversity, Equity and Inclusion are terms that are used to describe the opposite, I call it Divisive, Unequal and Disclusionary. It has not place in the classroom.

Candidate responses are shown verbatim except for typographic normalization needed for document rendering.
