1

1. Abortion is the intentional act of ending the life of another human being, while in the womb. Lawmakers should work to promote and protect the value of human life from conception to natural death, rather than further expansions of abortion access. (HB126-2026; HB42-2025; HB 148-2024)

RESPONSE Strongly Agree

Abortion should be prohibited to the greatest extent possible.

2

2. The danger of chemical abortion has been heavily researched (see EPPC study). Lawmakers should work to ensure that women are fully informed and receive a medical examination prior to receiving such drugs. (HB64-2025; HB117-2026)

RESPONSE Strongly Agree

3

3. Individuals and faith-based entities should have the right of conscience to freely live out their sincerely held convictions without fear of government infringement or retaliation. (HB 207-2025; SF 77-2025)

RESPONSE Strongly Agree

The First Amendment to the United States Constitution guarantees freedom of religious exercise, which means freedom to live out one's faith.

4

4. Medical personnel should not be required to participate in any medical procedure or service that conflicts with the individual's sincerely held moral, ethical, or religious beliefs. (SF111-2023; HB143-2026)

RESPONSE Strongly Agree

- 5** *5. Lawmakers should protect minors by ensuring that government-funded spaces, including libraries and public schools, restrict access to sexually explicit content, while recognizing the right of parents to make decisions regarding their minor children's access to such materials. (HB10-2026)*

RESPONSE Agree

While this generally makes sense, important literature, such as the Old Testament of the Bible, can get extremely explicit. At the same time, there are other forms of content that can be similarly damaging when adult supervision is not present.

- 6** *6. Wyoming should recognize biological differences between men and women and protect girls' sports, locker rooms, and sex-designated spaces. (SF 44-2025; SF 62-2025; HB 72-2025; HB 32-2025; SF133-2023)*

RESPONSE Strongly Agree

- 7** *7. Lawmakers should support legislation that helps parents stand up to government entities that attempt to circumvent their rights in raising their children. (Sf 09-2024; HB 200-2025)*

RESPONSE Strongly Agree

- 8** *8. Lawmakers should allow education funding to follow the child and protect parents' freedom to choose public, public charter, private, or homeschool options. (HB 166-2024; SF 61-2024; HB 199-2025; HB 94-2025; HB 46-2025; HB 23-2026)*

RESPONSE Agree

While this is appealing in the abstract, history has shown that expanded government regulation often follows government appropriations. This could introduce excessive government intrusion into spaces via the power of the purse where government oversight is unwelcome or inappropriate.

- 9** *9. Lawmakers should support open enrollment policies that allow students to attend schools regardless of their geographic address. (SF 109-2025)*

RESPONSE Agree

This is a difficult issue in a place like Wyoming where there is a risk of displacement if people who have the ability and means to travel to schools could displace other students in a neighboring rural community who have less flexibility to travel. This risk is more acute following the recent era of forced downsizing of rural school facilities to comply with Supreme Court rulings.

- 10** *10. Lawmakers should ensure that public schools and post-secondary educational institutions do not seek to enforce DEI (Diversity, Equity, and Inclusion) mandates, which promote discrimination by dividing individuals into classes of "oppressed" and "oppressor." (SF 103-2025; HB 147-2025)*

RESPONSE Agree
