Candidate-submitted response. The answers below were received through the 2026 school board candidate survey form and are reproduced as submitted, with only formatting changes. Publicly researched positions were not used. Publication does not constitute an endorsement by Wyoming Family Alliance Action.

1

1. Student achievement in core academics, especially reading and math, should be the board's first priority when setting district goals and budgets.

RESPONSE Strongly Agree

The students need to be able to make wise decisions to prosper in life once they are out of school. They are our future and they need to know the history of our great nation and love and respect it. They need to be well rounded in their education in order to establish and run a company or advance in another company. Good work ethics are so very important.

2

2. Districts should use reading curricula built on systematic evidence based literacy instruction and not on three-cueing systems. (SF 59-2026)

RESPONSE Strongly Agree

Reading is not a guessing game. You need to sound out words and know what they mean. How can you learn a love for reading if you are guessing what the author is saying?

3

3. Parents, not the school, are the primary decision makers in their children's education, health, and upbringing. (SF 9-2024)

RESPONSE Strongly Agree

The parents are the primary decision maker on what their child needs. They are responsible for the way that the student is raised. And the parents need to take that responsibility unto themselves.

4

4. District staff should promptly inform parents of any significant change in their child's well-being at school, including a request to be treated as the opposite sex. (SF 9-2024)

RESPONSE Strongly Agree

This topic is for the parents and child to handle. If this happens, the parents need to be notified immediately, and no changes are made with the child.

5

5. Parents and community members should be able to easily review all curriculum, instructional materials, and supplemental materials used in district classrooms. (SF 62-2022)

RESPONSE Strongly Agree

Parents need to know what is being taught in the classroom.

6

6. Students should receive sex education only with a parent's written permission in advance. (SF 9-2024)

RESPONSE Strongly Agree

Sex education has no place in the classroom below the 10th grade. And with prior written permission from the parents. Parents should be addressing and teaching this to their children.

7

7. School libraries and classrooms should not offer sexually explicit material, while keeping age-appropriate, factual materials on human biology and health. (HB 10 Engrossed-2026)

Required: Please explain where you would draw that line and what review process you would support for parents who raise concerns.

RESPONSE Strongly Agree

Sexually explicit material has no place in a public-school library.

8

8. The district should fully uphold Wyoming law that keeps girls' sports, restrooms, locker rooms, and overnight accommodations separated by biological sex. (SF 62-2025; SF 133-2023; HB 32-2025)

RESPONSE Strongly Agree

Biological males have no place in girls' sports, locker rooms, restrooms or overnight accommodations. The girls need to be protected at all times.

9

9. District curriculum, programs, and staff training should not divide people into classes of "oppressed" and "oppressor" based on race, sex, or other group identity. (HB 147-2025)

RESPONSE Strongly Agree

Every student should be accepted just as they are. Equal standing.

10

10. Students should be free to express their sincerely held religious beliefs at school without fear of penalty or retaliation.

RESPONSE Strongly Agree

As long as the student isn't trying to force their beliefs on others, they should be able express their own beliefs without penalty or retaliation. First Amendment right.

11

11. The board should respect parents' freedom to choose public, charter, private, or home education, and should welcome homeschool and private school students in district activities as state law now requires. (HB 199-2025; HB 46-2025; HB 23-2026)

RESPONSE Strongly Agree

The home-schooled students and those from charter schools should be allowed to participate in all activities that are offered by the district. Their tax dollars support the district just like everyone else.

Candidate responses are shown verbatim except for typographic normalization needed for document rendering.
