Candidate-submitted response. The answers below were received through the 2026 school board candidate survey form and are reproduced as submitted, with only formatting changes. Publicly researched positions were not used. Publication does not constitute an endorsement by Wyoming Family Alliance Action.

1

1. Student achievement in core academics, especially reading and math, should be the board's first priority when setting district goals and budgets.

RESPONSE Strongly Agree

Foundational patriotic education should be the cornerstone of our education system. There are too many children being released into our workplace without the ability to read properly, to have legible handwriting, so you can read the sentence they wrote, and that can make change properly. I also believe that American history is of utmost importance to our kids coming up because without it woke ideologies can worm their way into their thinking process. Our children need to know the sacrifices that were made to build this country and keep it free.

2

2. Districts should use reading curricula built on systematic evidence based literacy instruction and not on three-cueing systems. (SF 59-2026)

RESPONSE Strongly Agree

It is a proven fact that strong leaders come from intense readers.

3

3. Parents, not the school, are the primary decision makers in their children's education, health, and upbringing. (SF 9-2024)

RESPONSE Strongly Agree

There's a strong distinction between the roles. Parents are totally responsible for the upbringing morally and instilling polite and courteous manners in their children. They should be involved in what their students are seeing and learning in the classroom. Educators are charged with teaching our children, proper reading, writing, arithmetic, and history.

4

4. District staff should promptly inform parents of any significant change in their child's well-being at school, including a request to be treated as the opposite sex. (SF 9-2024)

RESPONSE Strongly Agree

Educators have no business discussing, presenting, or influencing a child about the opposite sex.

5

5. Parents and community members should be able to easily review all curriculum, instructional materials, and supplemental materials used in district classrooms. (SF 62-2022)

RESPONSE Strongly Agree

I believe that the district's responsibility to the parents is total transparency.

6

6. Students should receive sex education only with a parent's written permission in advance. (SF 9-2024)

RESPONSE Strongly Agree

I don't believe it's the district's responsibility to educate any child to any sex education. It is totally the responsibility of the parents.

7

7. School libraries and classrooms should not offer sexually explicit material, while keeping age-appropriate, factual materials on human biology and health. (HB 10 Engrossed-2026)

Required: Please explain where you would draw that line and what review process you would support for parents who raise concerns.

RESPONSE Strongly Agree

I do not believe there should be any sexually explicit materials in either the library or any classroom. I think the upper classmen used to and still should take classes on biology and human health. There needs to be a resolution between all parties involved, civilly to protect the child's best interest.

8

8. The district should fully uphold Wyoming law that keeps girls' sports, restrooms, locker rooms, and overnight accommodations separated by biological sex. (SF 62-2025; SF 133-2023; HB 32-2025)

RESPONSE Strongly Agree

I agree with the law that the school district adopt and follow what has been set forth by the state of Wyoming. My personal conviction is that God made male and female. He doesn't change. He doesn't make mistakes.

9

9. District curriculum, programs, and staff training should not divide people into classes of "oppressed" and "oppressor" based on race, sex, or other group identity. (HB 147-2025)

RESPONSE Strongly Agree

Our country fought a Civil War to try and settle this once and for all. It did not totally work, but through the years we have had patriots continue to level the playing field. The socialist ideologies that are loosen our country. Continue to push this ideology. That is why I feel that the true American history needs to be taught in our classrooms.

10

10. Students should be free to express their sincerely held religious beliefs at school without fear of penalty or retaliation.

RESPONSE Strongly Agree

When I went through school in the late 50s and through the 60s, our schools open their day with prayer and the pledge of allegiance to our flag. I lived in a much more peaceful environment. Also the constitution of the United States article one gives those students the ability to have free speech and to worship whoever and however they desire.

11

11. The board should respect parents' freedom to choose public, charter, private, or home education, and should welcome homeschool and private school students in district activities as state law now requires. (HB 199-2025; HB 46-2025; HB 23-2026)

RESPONSE Agree

The parents ultimately are the decision makers of whether or not their children can learn in a peaceful tranquil setting without being bullied, oppressed, or criticized for their beliefs. If the district can't provide that environment, then the parents have every right to seek other types of education for their children.
